KAYYOOM ALI

Senior React Native Engineer | Mobile Architecture & Performance Engineering

New Delhi, India • kayyoomali17@gmail.com • LinkedIn • GitHub

PROFESSIONAL SUMMARY

Senior React Native Engineer with **4+ years of end-to-end ownership** of production-grade iOS and Android applications serving thousands of daily users across healthcare, logistics, and field-operations domains. Track record of **architecting scalable mobile systems**, leading **native module development (Swift / Kotlin)**, and engineering **BLE-based hardware integrations** under strict reliability constraints. Consistently delivers **99.5%+ crash-free production apps**, compresses release cycles by **~70%** through OTA pipelines, and partners cross-functionally with product, backend, QA, and design to ship business-critical features. Comfortable owning architectural decisions, driving technical direction on greenfield initiatives, and mentoring peers through structured code review.

CORE COMPETENCIES

Mobile Architecture • Performance Optimization • Native Bridging (Swift / Kotlin) • BLE & IoT Integration • Production Reliability • OTA Release Engineering • Code Review & Mentorship • Cross-Functional Leadership

TECHNICAL SKILLS

Mobile & Frontend: React Native (Hermes, New Architecture awareness), TypeScript, JavaScript (ES6+), React.js, React Hooks, Reanimated, Gesture Handler

State Management: Redux Toolkit, Redux Saga, Redux Thunk, Context API, custom store patterns

Native & Device Integration: Native Modules in Swift & Kotlin, Bluetooth Low Energy (BLE), Push Notifications (FCM / APNS), Deep Linking, Permissions, Camera & Sensors

Backend & Cloud: Firebase (Firestore, Authentication, Cloud Functions, Crashlytics, Analytics), REST API design & integration, real-time data sync, offline-first patterns

Testing & Quality: Jest, Detox (E2E), unit & integration testing, manual QA workflows, Sentry monitoring

Release & DevOps: App Store Connect, Google Play Console, OTA Updates (CodePush, Revopush), versioning strategy, semantic releases

Tooling & Workflow: Git, Jira, Postman, Charles Proxy, Xcode, Android Studio, VS Code, Flipper, Agile / Scrum

PROFESSIONAL EXPERIENCE

Gosamplify Pvt. Ltd. | Delhi, India — *Jan 2024 – Present*

Software Engineer — React Native

- **Architected and led end-to-end delivery** of two flagship field-operation platforms (Samplify Sarthi, Samplify Sathi), supporting thousands of concurrent users across complex logistics and phlebotomy workflows.
- Drove production reliability to a sustained **99.51% crash-free rate** by instituting proactive monitoring with Firebase Crashlytics and Sentry, owning incident triage, and establishing a structured release-quality process.
- Designed and shipped a **reusable BLE communication module** with auto-connect, retry logic, and manual fallback strategies — **reducing device pairing time by 90%** and eliminating long-standing cross-device compatibility issues.
- Built an **OTA release pipeline** (Revopush / CodePush) enabling same-day hotfixes and **compressing feature release cycles by ~70%**, decoupling delivery from app-store approval timelines.
- Authored **native bridging modules in Swift and Kotlin** to expose platform-specific capabilities (BLE state, system permissions, background tasks) unavailable through standard JavaScript APIs.

- Integrated Firebase (Firestore, Auth) with custom **offline-sync layers** to deliver real-time data consistency across intermittent network conditions encountered in field environments.
- Partnered with backend, QA, and product to define release SLAs, triage post-release defects, and drive a measurable reduction in regression bugs sprint-over-sprint.
- Mentored junior developers through code review, pairing sessions, and architectural design discussions.

Allin Info Systems Pvt. Ltd. | Noida, India *Apr 2023 – Dec 2023*

Software Engineer — React Native

- **Owned mobile development** for two consumer-facing applications (Swagmee Salon, LokBest), shipping production releases on both iOS and Android.
- Translated complex Figma designs into **pixel-perfect, responsive interfaces** with consistent behavior across device sizes, platforms, and OS versions.
- Integrated **Razorpay payment gateway** end-to-end, enabling secure in-app transactions and improving checkout reliability.
- Implemented **OAuth-based authentication** (Google & Facebook), streamlining onboarding and increasing login success rates.
- Instrumented apps with Firebase Analytics — defining event taxonomy with the product team to enable data-driven feature decisions.

Appinventiv Technologies Pvt. Ltd. | Noida, India *Feb 2022 – Mar 2023*

Software Engineer — React Native

- Delivered core features across the full development lifecycle of **Phelans Pharmacy**, a production healthcare e-commerce platform.
- **Architected Redux Toolkit–based state management** for cart, user profile, and inventory modules — handling thousands of SKUs and high-resolution catalog assets without performance regression.
- Led the **migration of legacy class components into modular functional components and custom hooks**, materially reducing technical debt and improving long-term maintainability.
- Managed real-time Firestore data flows for inventory and user state, balancing read/write efficiency with consistency guarantees.

SELECTED PRODUCTION APPS

- **Samplify Sathi** — Field-force management for phlebotomy operations | *React Native, BLE, Firebase, Redux Toolkit* — Android , iOS
- **Samplify Sarthi** — Logistics & sample-tracking platform with real-time sync | *React Native, Native Modules (Swift / Kotlin), Firebase* — Android , iOS
- **LokBest** — Grocery commerce app with OAuth onboarding & analytics | *React Native, Firebase Analytics, OAuth* — Android , iOS
- **Swagmee Salon** — At-home salon services platform with Razorpay payments | *React Native, Razorpay, OAuth (Google / Facebook)* — Android
- **Phelans Pharmacy** — Medicine-delivery healthcare app with large-scale catalog | *React Native, Redux Toolkit, Firestore, Functional / Hooks architecture* — Android

EDUCATION

- **Master of Computer Applications (MCA)** — PSIT, Kanpur (2021)
- **Bachelor of Science (Mathematics)** — CSJMU, Kanpur (2018)
